# *PARTICIPATING COUNTRIES*

*Czech Republic, Hungary, Poland, and Romania belong to countries with a common history and their cooperation can be found already hundreds and hundreds of years ago. Like most of the post-communist countries, these lands have common issues on the national level as well as on the local level. The youth work is not any different. Therefore the cooperation of those four states can bring huge advantages for the future as well as close connections between young individuals can bring new ideas which will develop their home communities.*
