DESCRIPTION

During the youth exchange, we have also implemented workshop with the topic of nature photography. It was a week-lasting activity with a purpose to emphasize the participants' link to the nature and their environment in general, in order to connect deeper with the project's topic. Another outcome was improving our digital skills, especially the art of photography. The participants' task was to take photos of nature. At the end of the week we have together picked the best ones in order to create this brochure. Find the results below:
